

FOLEY'S KIDNEY CURE

Cures Kidney and Bladder Diseases in Every Form—Many People Have Kidney Trouble and Do Not Know It.

HOW TO FIND OUT.

It is the function of the kidneys to filter and purify the blood which is constantly passing through them.

When the kidneys are out of order the other organs are affected immediately and you may have symptoms of heart trouble, stomach and liver trouble, and other ailments, which are all owing to the kidneys being weak and out of order.

If you are sick **Foley's Kidney Cure** will strengthen and build up the worn out tissues of the kidneys so they will act properly and the symptoms of weakness, heart, stomach and liver trouble will disappear and you will be restored to perfect health.

How to Tell If You Have Kidney Trouble.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased and **Foley's Kidney Cure** should be taken at once.

Foley's Kidney Cure is pleasant to take and acts directly upon the parts affected and you begin to feel better at once.

It corrects slight disorders in a few days and it has cured many obstinate cases after other treatment had failed.

Doctors Said He Would Not Live.

Peter Frey, of Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. **Foley's Kidney Cure** was recommended to me by a friend, and I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well."

Two Sizes, 50c and \$1.00.

STEAMSHIP LINE FROM FLORIDA TO HOLLAND

Whole State Will Benefit by New Service Between Jacksonville and Amsterdam.

No member of the Jacksonville Board of Trade takes more interest in the development of Florida than Irving H. Welch, manager of the Southern Land and Timber Company of this city, and Mr. Welch is constantly working to secure results, says the Jacksonville Times-Union.

At the meeting of the Board of Trade last night the following letter from Mr. Welch was read and referred to the committee on transportation, to which committee the matter of securing the Burg Line of steamers to ply regularly between Jacksonville and Amsterdam had been previously referred.

Steamers From Holland.
"Jacksonville, Fla., July 12, 1905.—Captain C. E. Garner, President Jacksonville Board of Trade, City: Dear Sir:—This letter is written to urge the importance of securing a direct line of steamers from Holland, the effort for which was endorsed by the Board of Trade in June.

"The fact that Brunswick and other ports are doing such a strenuous work to get such a line should be an incentive to our people to leave no act undone tending to make Jacksonville the United States terminus of the line. Such achievement would be of vast importance not only to the port of Jacksonville but to the entire state of Florida.

"A gentleman in the government service tells me he was informed by a pilot that last Saturday there were twenty-seven feet of water over the bar, so lack of water should be no hindrance.

Advantages Enumerated.

"Some advantages that might interest the steamship owners, aside from the immediate important commercial features, are the almost infinite possibilities of development of the immense agricultural territory tributary to the city. Jacksonville is the undisputed center of all that remains in this country for the naval stores operators. It is the distributing point for manufactured supplies and foodstuffs of every sort for this part of the southeast.

"Jacksonville is the gateway of the most popular winter resorts in the whole country. It is the largest city of the greatest peninsula in the United States.

Desirable Class of Citizens.

"Jacksonville wants the agricultural resources of Florida developed, and recognizes the fact that the Hollanders will make most excellent citizens and valuable helpers in the cultivation of the land and production of crops, which can be made very remunerative, through the gratification of the appetites of our winter visitors and for northern markets.

"Hollanders will find in Florida much they are familiar with: Salt water and fish in abundance, low lands that produce well their favorite vegetables and a most healthy, congenial climate. They are citizens, trained truck growers, natural dairymen, religious, intelligent, thrifty, law-respecting people, who will prosper and build up any community favored by one of their settlements.

They Want Information.

"The writer recently visited the Holland settlements in Michigan and South Dakota, with a view to interesting some of them in locating in Florida. The colonies referred to are among the best improved, in the richest portions of the respective states and the citizens the most respected. Their lands are too thickly settled and too high-priced for the newcomers direct from the old country, and the surplus there are eager for information regarding Florida.

"One of the first questions asked by the principal founder of a South Dakota colony was whether we have ships direct from the Netherlands. He said that would be a great inducement, as the long railroad trip from New York to the west was very objectionable to the simple folk who come to America to build homes.

Will Come in Numbers.

"They want to come in numbers sufficient to establish their own Dutch Reformed Churches and have their own ministers at the start; then they will send the children to our schools, and cheerfully go to work to open their farms and learn the ways of their new fatherland.

"I never knew a Hollander to return to the old country to live. Instead, they send back for their relatives and friends in their own crowded country in Europe to come here, where they have larger opportunities and can get homes of their own and find employment for all members of their usually large families.

Should Make Every Effort.

"Twenty-one years' residence among the Hollanders in a new country convinces me that Florida cannot possibly get a more desirable class of settlers than the Hollanders, and we should make every effort possible to secure this Vossburg line of ships, as that, it appears, will materially help us. Yours truly,

IRVING H. WELCH.

Besides referring the letter to the committee on transportation, a copy of it was ordered forwarded to Robert W. Simms of this city, who is now in Paris, with a request that when he visits Amsterdam he will do all that he can to influence the owners of the line to make Jacksonville the United States terminus.

ECZEMA ITCHES AND BURNS

The return of warm weather means a return of torture to Eczema sufferers. The blood is charged with burning acids and acid matter which is forced to the surface through the pores and glands, forming pustules which discharge a sticky fluid, and the itching is intense.

The doctors said I had pustular Eczema; it would break out in small white pustules, mostly on my face and hands, discharging a sticky fluid; crusts would form and drop off, leaving the skin red and inflamed. I was tormented with the itching and burning character, and during the time used various medicated soaps, ointments and washes, but these applications seemed to make me worse. After taking S. S. S. a short time I began to improve; the itching did not worry me so much. I continued the medicine, and soon all the ugly eruptions disappeared and my skin is now as clear as anybody's. I have not been troubled with any breaking out since. Urbana, O. E. E. KELLY.

Sometimes the disease is in the dry form, and bran-like scales form on the skin, but the cause is the same—humors in the blood. Salves, cooling washes, powders and the like can do nothing more than relieve the itching, because they do not reach the acid-laden blood, the seat of the trouble. S. S. S. cures Eczema and all skin diseases by neutralizing the acids and carrying them off through the proper channels. When S. S. S. has done this the symptoms pass away, the blood is cooled and the disease is cured permanently. Nothing acts so promptly or surely in skin diseases as S. S. S., and it at the same time acts as a tonic to the entire system. Book on Skin Diseases and any medical advice without charge.

CAPT. DIXON REED 50 YEARS ON THE BAY

Last Wednesday Witnessed a Half Century of Service by This Gallant Old Sailor.

Capt. Dixon B. Reed, of 24 West Independence street, rounded out 50 years of active service on the bay on Wednesday last.

On July 12, 1855, Capt. Reed, who was then a lad of 12 years, shipped before mast on the sloop, "Sallie," which was commanded by the late Capt. William McKenzie. He remained on the "Sallie" for two years, after which he joined the crew of the sloop Roger Stewart, Capt. Robert Smith.

Before the war Capt. Reed shipped as mate on the schooner Dora, which was engaged in the coasting trade, and remained with the above boat until the war broke out, when he left the sea in the defense of the south.

At the conclusion of the war the Captain joined the crew of the well-known boat R. E. Lee, on which, he remained for six months, when he purchased the passenger sloop "Faulstich" which he used to carry passengers and freight between Pensacola and the navy yard, until 1874, when he purchased his present sloop "Wallace."

During the Captain's ownership of his present boat he carried the mail between this city and the quarantine station for fourteen years. The Captain, who is now past sixty years of age, is still hale and hearty and takes a great deal of pleasure now in sail on the bay and can be seen out on almost any pleasant day with a party who are desirous of catching a good string of fish.

A household necessity. Dr. Thomas' Electric Oil. Heals Burns, Cuts, wounds of any sort; cures sore throat, croup, catarrh, asthma; never fails.

LABORERS CHASED AWAY BY HORDES OF MOSQUITOES

Colored Men Employed on East Coast Extension Ousted by Varacious Blood-Suckers.

A story comes from Key Largo to the effect that the colored laborers carried there to begin work for the railroad went up against a proposition they knew nothing about.

The men were unacquainted with conditions on the keys and went down there without mosquito bars. They got along alright during the day, but when night began to fall swarms of mosquitoes made their appearance from the neighboring woods and the laborers found themselves without protection against the millions of blood-suckers.

They fought for a while but finding it no use, lit out for civilization. One of their number guessed that Key West was about 10 miles off and they started in this direction. At the first farm house they were informed differently and went back to camp. Nothing later has been heard from them but it is supposed that a hurry order was sent for mosquito bars, and the next gang that goes down there will be provided in advance.—Key West Inter-Ocean.

Years of suffering, relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 50 cents.

Letters and Comment.
Dear Mr. Editor:—This is our first attempt at that dollar. We do hope one of us will get it. Your little Bagdad friends, S. E. Stewart, Addie Stewart, Annie Simpson, Ellie Simpson.

My dear little ladies, the editor would be so glad to have you get the dollar this time, but if you do not, remember to—"keep on keeping on."

Dear Mr. Editor:—Should I be the successful one of the "shiny dollar" this week, I intend starting a bank account with it. One of your many, many little friends, Eva D. Howe, Bagdad, Fla.

What can a puzzle editor—so rich in friends but poor in dollars—do? I tell you, Miss Eva, when you have a bank won't you lend me enough to give a "shiny" to every member of the Puzzle army? Wouldn't that be fun? Will you? "On long time and easy payments," you know?

Dear Sir:—I send answers to puzzles in Sunday's Journal. I hope they are correct and that I will be lucky in the drawing for the big dollar. Your little friend, George Richard Hurd, Brewton, Ala.

Well, my boy, you certainly have my best wishes, and I wish to compliment you on your neatly written answers and your correctly addressed envelope. It is postmarked "Brewton, July 10, 8:30 p. m. and was received, Pensacola, July 11, 5:30 a. m. and got to The Journal promptly.

Rufus Eggart, McWilliams, Ala., gives correct answer to the first, but gives the last as "Tis gold that glitters." Try again young man. Glad to have you for a "regular."

Flossie E. Morgan, writes: "Mr. Editor, I am a little eight year old girl, a visitor to the city, and I saw your puzzle in my aunt's paper and thought I would answer. Hope I will get the dollar."

I hope so, too, little lady, for you are brighter than a new silver dollar you see. "If at first—you know the rest."

Arthur Johnson's artistic pen has been repressed as long as he could stand it and this week his and Manuel's answers come in an envelope decorated with "dollar signs" and one very imperative looking big \$1 in the "stamp" corner. Glad to see it boys. Looks like old times. Hope you'll get it.

A correct and beautifully pen and ink written but unsigned answer is received and is believed to have come in an envelope bearing Pebley Barrow's name.

Two answers, written in different "hands" and both signed "Minnie Brown" but neither giving an address, are received, but, as one is correct and the other is not neither can be counted as both may have come from the same little lady, though there are several among the puzzlers. Better give address.

Etta M. Long writes: "Mr. Editor, How can I write plain when the 'Puzzle Answer Coupon' is so small? I hope you can read my name and address, but I could hardly crowd it all in the stinky little old space you give." No wonder, Miss Etta. Instead of simply signing your name and address thus: "Etta M. Long, 283 — St. City"—you write: "Yours truly, Miss Etta Marianna Long, Number 283 — street, Pensacola, Florida, Escambia County." Just think the matter over and leave out every unnecessary word and letter. The "Coupon" has ample space for all it is necessary to write.

Lola Johnson's correct answers to July 2, did not reach The Journal till Friday, July 7, 1 a. m., and the envelope is postmarked "Pensacola, July 6, 8:30 p. m." which was too late. Victoria Carpenter writes the following pretty little note: "Dear Editor: My sister, Mrs. Morgan, takes the paper and I am trying to get the silver dollar," encloses answers to the puzzles of July 2. Unfortunately the envelope is postmarked, "Pensacola, July 6 (Thursday) 8:30 p. m." and did not reach The Journal till 1 a. m., several hours too late. Next time, Miss Victoria, if you do not get your answers till Thursday afternoon, better send them direct to The Journal office.
